THE GREAT NATIONAL INDUSTRIAL CONFERENCE BEGIN THEIR WORK.

Temporary Organization Effected—Rev. Ur. Lockwood Offers the Opening Prayer-Hlinois Sends the Banber Delegation-The Slates Not Represented.

CINCINNATI, Feb. 25.-All morning the National Industrial conference thronged the hotels, held important committee meetings and discussed the situation generally. Many, of them were new to the work, and their nnfamiliarity with parliamentary affairs made things move more slowly than might otherwise have been the case, but there was no real difficulty on this account.

The time set for the convention was 12 o'clock, but at that time Music Hall, the place of meeting, was entirely empty. Shortly after that time, however, the mussive front doors of Music Hall were swung open and the hundred or so who had 'collected before the front of the huilding were admitted. Quite a steady stream of humanity flowed into the lmmense hall for some time and took places by the various places. It was long after 1 o'clock before they were called to order. Many American flags ornamented and brightened the platform, and these gave n cheerful appearance to the splendid hall,

The place allotted to Indiana and Illinois was soon quite densely packed; Ohio and Michigan were well represented. Rev. Lockwood, of this city, came early, went away and returned about 1. He sat for awhile on the stage chatting with Secretary Jones, of the local district of the Knights of Labor, awaiting the time for offering up the opening prayer. One of the chief attractions were the lady delegates, who occupied central positions in the hall. They were: Miss Marion Todd, of the Knights of Labor, from Battle Creek, Mich.; Mrs. Eniery, Mrs. Severance and Mrs. Culbertson, also from Michilgan, and all three Greenbackers.

Mrs. Bowen, of Elgln, Ill., and Mrs. Heath, of Chicago, visitors, also occupied seats on the floor, but were not delegates. It soon became evident that there were not thousands coming to this convention, not even one thousand. When the meeting was called to order by Gen. S. B. Heath, of Chleago, at 1:30 p. in., there were only about 300 persons In the hall. Chairman Heath said that it was not only proper, but custommry, to open the convention with prayer.

A cry of "l object," came from Illinois. Mr. Lockwood said: "Our Father and our God, who art over all things for ever more. You are the God of all nations, and will establish peace among all men. We thank Thee for the impulse of American govern-Incorporated in 1868 for twenty-five years by the Legislature for Educational and Charles to the Legislature for Educational and Charles to which a reserve fund of over \$550,000 has since been added.

"Hurrah for old Dick" cried somebody in the back of the audience, and three loud cheers made Music Hall resound.

It was then announced that Rev. Lockwood

would deliver the welcoming address. At this writing there is little doubt but that there will be a split in the convention as soon as the report of the committee on platform is received. All delegates from the country and small towns, and many from the cities, the Knights of Labor being included in the latter, will oppose the George theory, while its friends are numbered almost entirely from the cities and from those who are not real es-

tate owners. This morning and last night the various state delegations met to select representatives on the various committees. The matter of s. land plank was discussed, and the states of Ohlo, Indiana, Arkansas, Texas, Michigan and New York are known to have endorsel the ideas expressed in the land plank of the Knights of Labor constitution, which prevents the giving of lands to corporations or

the selling of it to foreign capitalists. There is no doubt but that the address Henry George, last night, will prove a bomb of no small dimensions to the convention. Its effect has been to stir up his admirers to make them work harder to get his land plank adopted by the convention, and on the other hand, it has stimulated his opponents to oppose it all the more bitterly.

A DEMON'S DEED.

A Young Wife Brutally Murdered by Her Husband, at Piqua, Ohio.

Piqua, O., Feb. 23.-A few weeks ago Mrs. Ida Beasley, colored, left her husband, Alexander Beasley, on account of Ill-treatment and failure to provide for her. Since then she has been living with her mother, on North Main street, and Beasley has made several efforts to induce her to return to him, and failing, has threatened her life. This mornlng she was alone in the house with her young baby and her little brother, a mere child, when Beasley burst through a window, and with a common pocket-knife attacked

her with the ferocity of a demon. The little boy ran screaming to alarm his mother, who was working at a residence but half a square away. The poor woman, on receiving the alarm, ran home. As she meared the house her daughter staggered from the door with the blood spurting from her severed throat, and fell dying at her mother's feet. She was carried into the house and died in a few minutes. Beasley, after completing his murderous assault upon his wife, ran up the street, gashing his own and the west. throat as he went, and after going a short distance fell to the ground with his throat cut almost from ear to ear. He died in an hour. Beasley came from Plnin Clty about two years ago. He bore a bad reputation, while that of his wife was excellent. The scene of the tragedy was absolutely hideous, the floors of the house and side yard and sidewalk were fairly swimming with blood. This is the fourth case of wife-murder and suicide that has occurred here within the last ten

SYKES' WAREHOUSE FRAUDS.

A Speculative Trust Company Gets Beantifully Left in the Proceedings.

CHICAGO, Feb. 23.-James W. Sykes, who, on February 5, was indicted on fourteen counts, for issuing fraudulent warehouse receipts, and victimizing the Merchants' Loan and Trust company out of some \$92,000, was before Judge Jameson to-day. In his interest appeared Leonard Swett and A. S. Sleeper. The latter state: I that in the Ilrse nine counts in the indictment related to the frandulent issning of recelpts for stock which was not in the warehouse at the time, and moved that these counts be quashed, because the parties to whom the receipts were Issued knew there was no stock there. The indictment specified that the fraud was committed August 7, 1886, and the concluding counts in it accused Mr. Sykes of disposing, fraudulently, of stock upon which the wnrehouse receipts had been issued.

Counsel for Mr. Sykes held that the repts on their very face showed that the Trust company was aware that Mr. Sykes had no stock in the warehouse when the papers were issued. Then, if they knew this, how could they be defrauded! The court held that inasmuch as the Trust company knew when it accepted Mr. Sykes' receipts these receipts called for stock which was not In the warehouse, they could not be defranded. Wis part of the Indictment alleging fraudulent uttering of paper was accordingly quashed. The court held to be sound, however, the two counts in which Mr. Sykes was charged with fraudulently removing the stock from the warehouse; and the matter was set for trial at the next term of court.

MARDI GRASS AT NEW ORLEANS. The Procession Was Not Up to Its I'redecessors-The Public Demands,

NEW ORLEANS, Feb. 23.—The procession of Rex to-day was not as attractive to the general public as usual. Public taste demands tinsel and glitter rather than art, and the latter predominated: There were twenty magnificent cars in all. The fifth tableau was a magnificent residence. A mother was wringing her hands in anguish beside an empty cradle. In an adjoining room the late tenant, a pretty little chreub, was engaged in a game of jack-pot poker with the son of the colored cook, and serenely whistling "Empty is the Cradle, Baby's Gone." Tableau 8-"Climbing Up the Golden Stalrs."

The goal was the vacant Bulgarian throne and a number of princelings were scrambling for the seat. The tenth car was occupied by Rex himself as klag of music. No. 15. The British lion before and now-before rampant, now couchant and sick. 17. Cresar crossing the Alps on toboggans. Following the Rex procession came the Independent order of Moons, a coniic organization, who chose us their subject, "This Mighty Yankee Nation."

JOHN SHERMAN RESIGNS.

HIS OFFICE AS PRESIDENT OF THE SENATE TO END NEXT SATURDAY.

He Returns His Timpks to the Sepalors for Uniform Courtesy and Forbenrauce Shown Him-Sennte and House Proceedings-Happenings in Washington.

WASHINGTON, Feb. 22.-The presiding offlcer of the senate presented a communication from the secretary of war in reply to a resolution offered by Senator Cullom in relation to the reasons for clerks in the war department working extravagances. The reasons assigned arc that the adjutant general's and surgeon general's office is behind, owing to the great number of calls made upon those offices for information in pension cases.

Mr. Cullom said that he had not meant to critize the management of the war department, but to show the necessity of a larger clerical force, and moved the reference of the communication to the appropriations committee with a view to such increase. He thought the government was not so poor that it was compelled to work the clerks extra hours. The letter was so referred.

Messages from the president were laid before the senate disapproving pension bills for Rachel Ann Pierpont and Jacob Smith, because pensions had been granted to them through the pension office, also pension bill for John D. Fincher, on the ground of absence of disibility. Referred.

A number of petitions and memorlals were presented and referred, among them several by Mr. Riddleberger against the ratification of the extradition treaty with Great Britain. Reports from committees were made and bills placed on the calendar as follows: Regulating pay of officers of the army and navy neglect to provide support for their families; establishing national quarantine station near Key West, Florida; authorizing the sale of the barrack property at Newport, Ky., and the purchase of a new site; authorizing the sale of surplus copies of public documents at cost price. This bill was passed. It provides that not more than one copy shall be sold to any one person.

The eonference report on the house bill to exchange property for the public building at Abingdon, Va., was submitted and placed on

Mr. Cameron, from coast defenses, reported resolution authorizing that committee to take testimony during the recess, and Mr. Allison, from appropriation, reported a resolution fixing the hours of the sessions from 11 a. m. to 9 p. m. Both resolutions were laid over.

After further routine business, the following letter was submitted by the presiding offleer.

To the Senate of the United S ates; "Senators-My office as president pro tempore of the senate will necessarily ferminate on the 4th of March next with my present term as senator. It will promote the convenience of the senate and the public service to elect a senator as president pro tempore whose term extends beyond that date, so that he may administer the oath of office to senator's elect, and in the organization.

I therefore respectfully resign that position to take effect at 1 o'clock p. m. on Saturday next, February 26. Permit me, in doing so, to express my heartfelt thanks for the uniform conrtesy and forbearance shown me while in the discharge of my duties as presiding officer by every member of the senate. JOHN SHERMAN." Very truly yours,

House.

WASHINGTON, Feb. 22.-The house met at 11 o'clock. Mr. Bland called up the vetoed pension bill of John W. Farrls, and asked the house to pass it over the veto, but the house refused to do so-yeas 132, nays 93-not the required two-thirds in the affirmative. The house then took up the senate amend-

ments to the sundry civil appropriation bill in committee of the whole. The house concurred in the recommenda-

tions of the committee on appropriations, and a conference was ordered on the disagreeing votes of the two houses.

Mr. Bragg, of Wisconsln, from the committee on military affairs, reported the bill which is intended as a substitute for the Me Adoo bill, "to provide for the manufacture of first-class modern guns for the navy and sea-coast and other defenses," and it was re ferred to the committee of the whole.

The committee report unanimously, and say that while they concur in the wisdom of making provision looking to a system of pub lle defense which shall protect our seaboard and the great lakes in case of the contingency of war, which the committee do not consider in any degree imment, they decline to adopt the proposed bill, but recommend the substitute therefor, which, in the judgment of the committee, will fully meet all present exigencies, and place the country in a position readlly and quickly to provide against all future exigencies as they may arise.

NEW RAILROAD COMPANY.

A New Extension of the Penusylvania System to Run Into Cineinnatl.

PITTSBURG, Feb. 23.—A number of railroad men representing the largest capitalists of the east and south, held a meeting in the offices of the Pennsylvania company in this city, yesterday. The business considered was the letting of contracts for the building of a road that will be a part of the general Pennsylvania system. The new company, which is known as the Ohio & Northwestern Railroad company, was organized for the purpose of building a road from Point Pleasant. W. Va., to Cincinnati, on the Ohio side of the river, in immediate connection with the Ohie Valley Rallroad company, on the West Virginia side, which has just been opened to Wheeling. The latter raid will be extended to Pomeroy, thus connecting Pittsburg with

an entirely new section of the country. The company has already purchased the Cincinnati & Eastern and Cincinnati & Porthmouth railroads and both are being reconstructed on the most modern principles. The fifty-three miles between Gallipolis and Portsmouth will be completed by August. Among the eastern people interested are James G. Bhaine, William Walter Phelps, Norman Miller, D. O. Mills, George West, Wharton Barton, of Philadelphia, and others. The road will traverse a section of the country inhabited by over half a million of people not now in reach of convenient railway facilities. H. C. Parsons, of Point Pleasant, W. Va., was elected president.

NATIONAL FISHERY CONVENTION.

Arrangements All Complete for the Grent Massachusetts Affair.

GLF.CESTER, Mass., Feb. 23.—Arrangements are completed for the national fishery convention to be held here Wednesday and Thursday. General Cogswell, congressman from this district; ludge Woodbury and Hon. Fitz J. B. Batson will be present and make speeches. President Steele, of the American Fishery union, will preside. Some 200 delegates are expected. Kadsgutaka Ito, an agent of the Japanese government, is in the city and will attend the convention. Ito is about twenty-eight years old. He belongs at Lapparo, Island of Yesso, and four months ago . left home as an agent of the government to iavestigate the fisheries and study the methods and mode of eatching and curing fish. A particular part of the American fisheries will be his chief study—that of curing and preserving fish. With that object in view he has already spent several months in California and Oregon investigating the methods of the Pacifio

Gloucester being the headquarters of the Atlantic deepsea fisheries, he proposes to remain here for a large part of the coming summer. He also proposes later on to ship on board of one of the grand or western bank fishermen, and learn by actual experience the manner and every-day life of the fishermen. K. Ito says Japan has cod, hallbut, mackerel, berring, and pollock. Fish is the principal article of dict there, and the value of the catch is \$35,000,000 annually. A large quantity is exported. The fisheries of Japan are exclusive to the people, the greater portion of their fish are inshore and are caught in small boats. The schooner is not used in Japan as a fishing craft. The present method of Japanese curing needs improvement, About New Years the fishermen of the Island of Yesso ships cod by steamer to the southern part of the island. In that locality cod are just as necessary for the New Year's dinner as the turkey is to Americans at thanksgiving

A Colored Woman Arrested for Murder in l'itlladeiphia.

PHILADELPHIA, Feb. 23.—Hannah Mary Tibbs, colored, was arrested last night on susplcion of having murdered the man whose dismembered trunk was found near Eddington, Bucks county, last week, wrapped up in paper. The nurdered man is supposed to have been Walter Gaines, a young colored man who boarded at 207 Shelter roud, who has been missing since last Wednesday morning. His sister, Mrs. Jennie Canaon, described him as being of medium height and build and distinguished by particularly stooping shoulders, which corresponds with those of the body found. She informed the detectives that about two weeks ago she heard Mary Tibbs, a colored woman swith whom her brother had been intimate, threaten him, saying she would kill him, or, get even with

John H. Tibbs, the husband of the suspected woman, says that when he reached home at 8 o'clock on Wednesday evening there was no one around. His wife returned home at 11 o'clock, and when asked where she had been, gave evasive replies. Conductor Swayn fully identified Mrs. Tibbs as the person who nad rode on his train with the bundles on the evening before the discovery was made, and whom he had given the rebate ticket between Cornwell and Eddington, Mrs. Tibbs was locked up pending a further investigation of

the Sun says: "Say, John, hadn't you better go home," sald a pollceman to a blg fellow with one arm in a sling, who staggered along Tremont street to-day. The man steadled himself against a lamp post and growled: "Naw, I hadn't better go home, and don't eliew forget it. There aint no man round here can send me and Billy home till we get ready." The women who were on the street crowded hito neighboring doorways and whispered to each other, "That's John L. Sullivan." The famous pugillst had been down town all day and had lmbibed of whisky until he was roaring drunk. In a bar-room he had met Billy Porter, the notorious New York bank thief, an I together they had swaggered up town, clearing the sidewalks of pedestaians as they went along. Billy Porter is here to look after some \$25,000 worth of property left him by his mother, and before he met Sullivan in the saloon he had spent two hours in the probate court. The policeman finally persnaded John L. and his companion to move on, and thinking better of it, John L. hailed a cab and he and his friend were driven to Roxbury.

Fatally Beaten by Hls Tenants. WILLIAMSTOWN, Ky., Feb. 23.-A serious

affray occurred near Dry Rldge yesterday between James Clark, a farmer, and a tenant and his son, named Lowe. Previous attempts had been made by the Lowes to thrash Clark. Yesterday evening while young Lowe held Clark the father beat him with a club, breaking one arm in two places and fracturing Clark's skull. Clark is dying. Young Lowe is in jail, but the father fled.

Eminent Commander, Ladies, Sir Knights and Brothers: I have a sad, though pleasing, duty to perform to-night. Sad, because what I shall say will bring vividly to the minds and hearts of many of this andience the life and character of two depicted Masons, who, j whilst living, were honored and esteemed by all, and whose death caused a void in the hearts of their brethren in this community that will never be titled. Pleasing, because I have the honor to present to this Commandery a gift from one of the "stered trio," in whose detense every gallant Knight has sworn to willd his sword, and pledged his manhood to honor and protect. God grant, Sir Knights, that your good deeds and earthly charities may cast a ficod of radiance across the "dark valley," as you journey therein, and light you to the pathways of peace beyond; and may the "morn of resurrection" be as bright and gladsome to yon. as will be the rays of to-morrow's ann. as they come trooping through you memorial windaw, to buthe and tint your favely asylum with their rainbow lines.

Every work of art, Sir Knights, if it be true, or by the hand of a master, bears some goodly message to the world. "Everything of beauty is a joy torever," Therefore, I trust that each of the beautiful emblems, and the motto upon the memorial, will teach its agpointed lesson, bear its appropriate message, and leave a deep impress upon your hearts, making you purer and better men and Musons, nobier and gentler Christmas and Knights. Remember, that to wear the erown, you must hear the cross, it being alone the sign of victory. May you emplate, Sir Knights, the virtues of those, whose memory the gift is designed to perpetuate, ever remembering in your prayers, the widows and orphans of your departed members. I know this gift will be highly appreciated by you all. Not alone for its infrinsic value. Nar yet, alone, for the beauty and elegance of its proportions, but chiefly, because of the tender heart of one of the widows of your Commandery, that, for the sake of the loved and lost ones, prompted the glit that you might ever bear them in mind, and share and lighten her sorrow by your sympathy and

remembrance. Accept the gitt, Sir Knights, and with it the wish of Mrs. Gray, that your Commandery may ever maintain the high rauk it now has among the Commanderles of Kentucky and her sister States. That your charily and geniune hospitality may commend you in the future, as it has in the past. Lasi, but not leasi, and sees in the first and friendly faces. In the language of an eminent craftsmen, "the myslic the of sympathy unites and binds nim to n society of congenial spirits, on whose kindeness and truth he may always rely, whose acts will always be open and sincere."

Look at the brilliant seene before us, and say whether in twenty-one years we have not made ginnt strides. For twelve months we were known as Maysville U. My Commandery idds me to say to the Governor of the Commonwealth of Kentucky, that we feel most deeply gratified by his presence to-night, and by his eloquent address; and that it is another evidence of the great estimate we place upon the order when we State to deliver the opening address upon this occasion. But, Eminent Sir, Musonry teaches that" the wisest and best of men in all ages have never deem dit derogatory to their d gulty to level them-elves with the fraternity, to justiopize our assembly or extend our privileges." To the representatives of the Grand Commandery of Kenducky, we say that no more cordial welcome can they find anywhere, than around this hanquet board, as we have long felt they know so well. Let nce say to our brethren of Confidence and Masoic Lodges, that It gladdens our hearts to have you with us to-night, and in the name of the Commandery, I bid you a cordial welcones. Brethren, we love the Commanders, but no Kulght Templar care ever lorget that Ancient Craft Masoury Is the good, old, troad toundation stone, upon which this sidendid, apper-structure tests, and that it is made square and true, that it is well adjusted by the skillful hand of the Master Mason. Your house in the luture is here, as is ours, witidu this stately temple, whose grand proportious speak in eloquent language of the prosperity of the craft.

There is among us an agaulzation, which has become in the last few years closely associated with us, to which we are very much indebted for whatever of success we may have attained on our visits to various meetlngs of the Grand Hodies. Gentlemen of the ound, you are our honored gnests to-night, and I know it is but justice to say that not even the members of this Commundery are pronder of this occasion than yourseives. Throughout Kentucky they are known as the Band of Maysville Commandery, and are just as widely known as the best band in the State.

It was long the custom, now the law, that we celebrate each anniversary of our organization. Three years ago, the ladies for the first time were invited. So pleased were we, that it is safe to say their presence will be always solicited. This is our twenty-first aunual banquet, Maysville Commandery No. 10 has altalned its majority. It stands before you to-night in nil the pride and glary of a young manhood. Fraters, I predict for you a giorlous career. You have succeeded in the just, you will succeed in the future, because you deserve success. I want you to become a power in this land. Stay where you have planted your leautiful standard as long as any wayworn, weary pilgrim "shall need your counsel, your purse or your sword." until poor, fallen lumanity shall no longer need your "acts of charity or deeds of pure beneficonce." Christian Knigh'hood, the loster child of Musonry, but the rea child of the Church.

It was in the dark days of the twelfth cenagain the portals of the sacred tomb, that nine brave Knights, touched to tenrs by the cruel wrongs of "poor and weary pligrims the Lord lay," banded themselves together to guide and guard these pilgrims on their way. "Without hope of tee or reward," in love they performed this duty, and from this small begioning grew the great order of Christian Knighthood. And, Sir, when that work was away Jerusalem, even as when our brethren 1887. Senator Worthington responded to the toast "Ancient Craft Masonry," saying Eminent Comman fer, Sir Knights, Ladies where withlu her borders the badge of this and Bcother Masons: There is a halo of rev erence that hangs about everything that is old. In the far back dim ages, before old Father Time had begun to stoop, and white he was yet in the hey-day of his youth, Craft Masonryhad its origin. By the aid of the sometimes tilekering light of tradition, its existence can be traced back to the time of the call upon the Chief Expentive of this great erection of the first temple at Jerusalem, nearly three thousand years ago. There Masonry was a corporation of architects-a company at builders, banded together for mutual instruction in their art, and for mutual a sistance in distresses that might overtake any of

its members. Since that time nearly all that is known to the idstary of the world has been enacted. The lives of left few of what we are wont to regard as the great nations of nutliquity autedated that epoch; and though the polished marble wails of that solemn and gorgeon structure-the first great work of Abelent traft Masoary-navelong since crumbled into dust, the brotherhood that thourished there has lived on down through the centuries to the present day, and the principles then inculeated in it are yet living principles. Through all the mutations of time; through all the ebhnod flow of scelai Institutious since that period; through the dark ages-that dismal suif of ignorance and intellectual night which divides the civilizations of ancient and modern times-Masons, proud of their descent from that band of immortals, whose designs were drawn on the tressle board in the Holy of Holles, have been meeting upon tho level and parting upon the square.

There must be somethlug meritorious la an organization of that kind. Not only must its objects and jurgoses be commendable, but its performances also. There must, besides, be something about it that appeals not alone to the judgment, but to the affections of men Built as it is upon a corner stene of charity and benevolence, its votaries have ever not only numbered it, but have boileved in it and loved it.

Experience leaches that institutions whether religious or civil, whese principles do not appeal to the heart as well as to the head, will soon sink into decay. Intellect and judgment are not the all of human nature. The emotions and the feelings-however unimportant a part they may, to our limited ken, seem to play in gulding rightly our actions in the great march of life-are yet. with the deeds prohipted by them, all that make human nature lovable, that make of

make human nature lovable, that make of mapkind one common brotherhood. It is not the exalted intellect of the philosopher, but the poetic soul, that is nature's masterpleee and darling.

Ancient Cratt Masonry exists to day in every civilized nation. Stiently and without ostentation, within its ancient landmarks, it is dolog its appointed work. Who can number how many cares it hus lifted, how many homes it has made sunnier, how many despairing hearts it has encouraged and ennobled? He who enters our fraternal association, cudned with the true principles of the order, must rise above selfishness, hypocrisy and decelt. The Mason moves in the midst of men who have hald aside their dissimulation, and sees inhaself surrounded by

VICTORY FOR BISMARCK.

A CLOSE AND VERY EXCITING ELEC-TION IN GERMANY.

Extraordinary Strength of the Socialists, and a Narrow Majority for the Government-Supplementary Elections Necessary in a Great Many Districts.

BERLIN, Feb. 13 .- The elections were favored by projetious weather, which brought out an unusually large vote. Prince Bismarck, together with all the munisters, took a lively interest in the day's proceedings and was the cynosure of all eyes at many of the polling idaces,

The returns from the elections come in slowly, but a very careful calculation, made on the basis of the figures already at hand, is generally conceded is that Prince Hismarck will succeed monobtaining a majority in the new reschstag, but one so sent that he will hardly get the septenate bill through. The government required forty votes to carry the measure, and twenty seats have already been won. The other necessary twenty will almost certainly be obtained from the wavering Center. It is certain, however, that the government wili not obtain a sufficient majority to enable it to secure the passage of their monopoly measures.

Herr Windthorst, the leader of the Conter

party, is re-elected.

The Progressive party is wholly demoralfred by the unexpected defeat they have suffered. Already seventeen seats have been wrested from them, while they have only gained one. The Socialists have lost seven and gained three. The total Socialist vote polled shows a gain of half a million since the last elections. The National Liberals gained mearly all the seats lost by both Progressists and Socialists

The offend reports from 133 districts have been received. Out of these new elections will be required in thirty districts, owing to meither candulate having received a majority of the whole number of votes cast. It the other 103 districts the candidates elected comprise sixty-six Septennists and thirty-seven Anti-Septennists or opponents of the government. These 103 members-elect are divided as follows: Forty-three National Liberals, fourteen Centrists, seventeen Conservatives, five Imperialists, four New German Liberals, six Socialists and fourteen Poles and Alsa-

This election was to seat a new reichstag, a body composed of between three and four hundred members. The government seeks to obtain a majority that it may get a favorable vote on the bill (septennate) to increase the army. The relebstag is divided in the Center or Catholic party, led by Windthorst (against the bill), the most powerful; the Conservatives, about seventy-five strong, led by Von Moltke (favorable to the bill); the National Liberals and New Liberals, split into several branches and led by Drs. Tasker and Rechter; the imperialists, led by Bismarck; the Socialists and Social Democrats, about fifty; Independents and others, scattering, about forty.

Supplementary elections will be called by the commissioners of elections about the beginning of next week. In all cases where the election rests between the Liberals and National Laberals, the former will undonbtedly be victorious, as the Socialists who hold the balance of power, will throw their votes to the Liberal candidate.

The rumors that the Liberals have suffered severely losses are constantly increasing and are augmented by returns which are favorable to the government.

A Big Scheme With Natural Gas. Cincinnati, Feb. 23.—Mr. James M. Clark, of this city, who has been working up a syndicate for the purchase of a valuable natural gas plant at Findlay, O., has returned, and states that, together with C. D. Robbins, of . Washington, Pa.; Capt. John Kyle, Ed. Boyd, William Henry Davis and A. O. Goshorn, of Cincinnati; H. B. Beymer, of Pittsburg, and others of Philadelphia, Boston and crowded tenement house. Nearly everything New York, the purchase of the Findlay Gas company's plant was consumated Saturday evening. This purchase includes the franchises, good will, all the wells and about 1,000 acres of land, and lincludes, also, the famous Karg well. It is the intention of the new company to immediately take steps toward plping the natural gas to Lima, Springfield, Columbus, Dayton and Ciuchmati.

Defrauding the Government. CINCINNATI, Feb. 23.—The Aurora Distilling company is ln serious trouble. It is accused of swindling the government by the thick-stave dodge, so successfully used by Maddux, Hobart & Co. two years ago. The revenue officials have recently seized a quantity of whisky sent by the Aurora distillery to Harry W. Smith, rectlller in Covington. The whisky was in half-barrels, each of which had a stave over an inch thick opposite the bung-hole, so that when the gauger's rod was inserted it failed to reach the lowest dephth of the barrel, and a gallon of whisky escaped antaxed in each case. This defrauded the government of ninety cents tax. An offer of compromise falled, and the matter has been reported to Washington. Thomas Gaff is

president of the company. Hope For the Anarchists.

CHICAGO, Feb. 23.—Lawyer John C. Richberg has discovered evidence of great importance to the Anarchists. During the trial witnesses swore that they saw two men, supposed to be Spies and Schwab, in the alley at the time of the explosion, but Mr. Richberg says the men who were in the alley were Otto and Carl Blank, alias Anderle, desperate characters and avowed Socialists. The Blanks fled from the city last June, and It was only through the arrest of Carl at Dresden, Saxony, that his connection with the Haymarket tragedy was ascertained. The two Blanks bear a striking resemblance to Spies and Schwab.

Suit for Damages.

XENIA, O., Feb. 28.—Suit has been brought agalust the Hooven & Allison company, extensive twine and cordage manufacturers of this city, by Miss Allce McGaughey, claimlng damages in \$5,000, for lnjuries to her hand and arm, claiming that the injuries are permament and where received while in the employ of the company, and while running a machine which she had notified them, several days before the accident, was out of order and should be repaired at once to which notilication, the plaintiff alleges, no attention was paid.

Found Itrowned.

PLYMOUTH, Ind., Feb. : 8 -The body of John Gerhardt was found in the Yellow river yesterday afternoon. The supposition is that while crossing the bridge he lost his balance and fell into the river, last Saturday night, being under the influence of liquor. He was lifty-five years of age and has no known relatives in this place.
